Volume 56 Issue 5

Carol Anne Scott

APRIL 5, 1942 – FEBRUARY 18, 2025

It is with deep sorrow that we announce the passing of Carol Anne Scott of Snohomish, Washington, who peacefully departed this life on February 18, 2025, in Everett, Washington. Born on April 5, 1942, in Elma, Washington, to Everett and Myrtle Jones, Carol was a proud graduate of Olympia High School, Class of 1960.

Carol was a loving wife, mother, grandmother, and great-grandmother. Her greatest joy in life was her family, and she treasured every moment spent with them.

Survivors include her devoted husband, Robert; her son, Richard; her sisters, Elaine and Marie; three beloved grandchildren; two great-grandchildren; and her loyal companion, Kiki, a small dog who was always by her side.

General and Board meetings usually held at Redmond Eagles 11440 Avondale Rd NE Redmond, WA 98052 On the second Saturday of each month

Carol's story continues here:

Carol had a passion for cars, and she took immense pride in her 1967 Chevelle SS 396, which she loved to drive and show at local car events. She also enjoyed traveling the world, collecting sea glass, and was a dedicated fan of the Seattle Seahawks, cheering on her team every blue Friday and game day. In lieu of flowers, the family requests donations be made to PAWS Animal Rescue, an organization close to Carol's heart. A graveside service was held in Carol's honor on March 7, 2025, at 12:00 PM at Mills & Mills Funeral Home and Memorial Park in Tumwater, Washington. Carol's laughter, love, and spirit will forever live on in the hearts of all who knew her.

A memorial celebration of life will be held on Saturday June 21st, 2025 at 12:30 pm at The Church of Jesus Christ of Latter-day Saints in Snohomish WA. The address is 8522 131st AVE SE Snohomish WA 98290

Presidents Words

Paul Keller

Hello V8er's,

As I write this, we have sold over 1100 stalls to vendors and RV campers for our 52nd Annual Swap Meet. Many last-minute sales are coming through and so far, we have been able to accommodate most requests. Area 600 & Buildings 600 & 604 are totally full. I am being told by some vendors that nearby hotel accommodations are overbooked and some have been bumped out of their reservations. It appears that the event will be well attended. Quite a few of the vendors booking stalls have not been in many years and have decided to return this year.

I want to thank everyone that has been working on this event as well as those that will be helping set up & make sure the event goes smoothly throughout the weekend. We will once again have the support of the student technicians at Sno-Isle Skills Center. We were invited to visit the students in the Automotive program and Bill Meade, Mark Keenholts, Dave White, & I took them up on it. Dave gave a presentation to the students that explained our swap meet and passed out posters & post cards at both the morning & afternoon class sessions. The classes are made up of students across Snohomish & Island counties that travel to Everett for 3 hours of training in automotive technology.

While at the school we were shown the auto shop as well as the welding & electronics sections by the instructors. It was an impressive sight. Also witnessed some firefighter training in our travels as well. The school will be putting on a car show this Saturday May 3 if anyone is interested, this would be another way to support this cause.

As previously mentioned, the Blumenstetters have worked to get a booth at the swap meet to promote our club. If you have any artifacts that you believe attendees would find interesting, please bring them to our Saturday meeting or to the meet. A couple of indoor stalls next to this booth have opened up, so if anyone would like to showcase their car, that would be great. Let me know if you are interested in this.

Our next meeting will be May 10, the usual place & time. This is just one week before the swap meet. Please come on out and get the latest news as we go over last-minute items.

Happy Fording,
Paul Keller

Meeting Minutes

Mary Lamken

Board Meeting

April 12, 2025

Present: Paul Keller, Mary Lamken, Bill Meade, Paul Blumenstetter, Jackie Blumenstetter, Jesse Quillizapa, Amy Quillizapa, Elmo Lewis, Christ Knutson, Mark Keenholts, Guy Generaux, Mike Rees.

Called to order: 1:15

Reading of Minutes - Accepted

Treasurer Report: Bob not present

Taxes: Paul will discuss taxes with him directly.

Swap Meet:

Stalls: Getting new vendors and returning vendors from 10 or more years ago are getting stalls. We have sold more than 1000 stalls as of this date. Last year, there were 1130 stalls sold.

Not going to open the 610 building. 608, 500 still have space.

SOLD OUT: 30, 600, 604.

400 has 10 stalls left, but many have poles in them so not desirable.

611 has plenty of space. 31 has a few spaces, 53 has a lot of spaces left.

There is a '43 Ford Fire Truck that will be on display. It is a parade vehicle for use in recruiting fire fighters. (US Navy Fire truck). Only built them for farmers or military.

Volunteer meeting needs to be set up soon.

Sno-Isle School tour is on April 16th. Mark and Paul will go.

Bill is organizing car corral trailer parking. He has orange poles with weights and caution tape to set apart the car corral from the rest of the parking lot.

Carol's story continues here:

I don't think anyone has won our meeting raffles as much as Carol, even multiple times during the same meeting. At our November 2019 Show N Tell meeting, Carol told the story of her live frog experience at home that prompted her collection of frog items. Once word got out people started to send her frog items from all over the world. Carol gave a impassioned an informative talk about her Pacific tree frogs. I belive the picture with Carol and the mop on page 3 is where that frog first appeared in Carol's life.

From: David White

I just received all the Tees and Polos, so those of you who are volunteering for the swap meet please send me your shirt size and preference and I'll bring the shirts to the meeting to hand out.

Here's the logo for this year's hat

Sno-Isle Voc-Tech Visit from Dave White

We visited Diesel Mechanics, Electronics, Fiber Optics, CNC machining, Auto Body and a wonderful detailed look at the Welding department. Please take a look at the pictures at <https://photos.app.goo.gl/YsfPVNkWYu7VeXfPA>

State-of-the-Art high school education with Applied Learning Experiences

Industry based classes where students can earn high school credits & equivalency credits, dual college credits, industry recognized credentials, externship opportunities, and apprenticeship opportunities!

Interested in a career as an Automotive Technician? This is the program for you! Skilled technicians for automotive technology are in high demand due to the constantly evolving technology of today's vehicles and retiring workforce of aging technicians. Currently, there are not enough new technicians to fill the demand of the automotive repair industry! Here at Sno-Isle TECH you'll have the opportunity to learn the fundamental skills required to be a successful technician. In our ASE Education Foundation-Accredited ([ASE Education Foundation](https://www.ase-ef.org/)) Auto Tech program, students can learn how to repair actual vehicles using Maintenance and Light Repair (MLR) ASE tasks and guidelines. <https://sc.mukilteoschools.org/>

52nd Annual Monroe Auto Swap Meet Dave White

We've had strong sales so far this year and have sold over 1,000 stalls with more sales daily. We have about another 350 stalls still available. Building 604 and 600 are sold out as well as area 30, with 400 not far behind. The Sky Valley Stock and Antique Tractor are bringing 10 tractors and will be located together in the Pygmy Goat barn 608. They're also bringing 15 kids from the 4H club to pull wagons to deliver parts to buyers in the outer parking lots.

The Whidbey Island Cruisers will be running the Car Corral this year, which still remains a great deal at \$40 to sell your vehicle from Friday noon May 15th to Sunday the 17th at 2pm. Mustangs NW will be helping in Vendor Parking and the VCCA (Vintage Chevrolet Club of America) will be handling the Vendor Gate.

We still need a few more hands for layout on Friday morning on May 16th. Please join us for breakfast and lunch, free T-shirt, Polo or Hat and free parking. Please contact Dave White at (206) 999-8138 for details if you'd like to help out.

Some of the proceeds from our event go towards automotive training programs for Sno-Isle Voc Tech (high school) and Shoreline Community College which has the largest automotive training facility in the state. Donate money, time or your efforts to help make this another successful Swap Meet.

New Exhibit at LeMay - America's Car Museum

In the earliest days of the automobile, a great debate stirred: were these new contraptions toys for the rich or a means to move the masses? For James Packard, Henry Leland, Charles Rolls, Henry Royce and others, the truth was found in the former. Others like Henry Ford, brothers John and Horace Dodge and Ransom E. Olds, fought for the latter. Could it be both?

Through the first decades of the 20th century, automobile manufacturers carved out their own vision, giving mobility to the general population like never before, while others focused on opulence and sophistication. In the 1920s, it became clear that the automobile was here to stay and it fit into the lives of many, not the few. While Ford churned out Model Ts, luxury automakers like Pierce-Arrow, Rolls-Royce, Cadillac, Packard, and Duesenberg built cars nearly 20 times the value of a Tin Lizzy.

Ford shows off a treasure trove of rarely seen vehicles

Thanks to Larry Lange for the find

DEARBORN, Mich. (AP) — A select few are getting the chance to set their gaze on a slew of rarely seen Ford vehicles at the automaker's Michigan headquarters.

About 50 cars and trucks that are part of Ford Motor Co.'s Heritage Fleet are on display in Dearborn. Some employees checked them out Tuesday, and the media got a look Wednesday. And next month, they'll be available for viewing as part of "Bring Your Child to Work Day."

"I'm so excited to be able to share these vehicles, because every one of these vehicles throughout this room are here because somebody, a passionate Ford employee, worked to have it preserved, worked to have it saved," said Ted Ryan, Ford's Heritage brand manager.

Ford has existing Heritage Fleets in the U.K., Germany and Australia. Over a year ago, company CEO Jim Farley charged Ryan with curating a U.S.-based collection. The American fleet now is 175 vehicles strong, with about 30% of it on display at the world headquarters.

Below A 2002 Ford MA concept

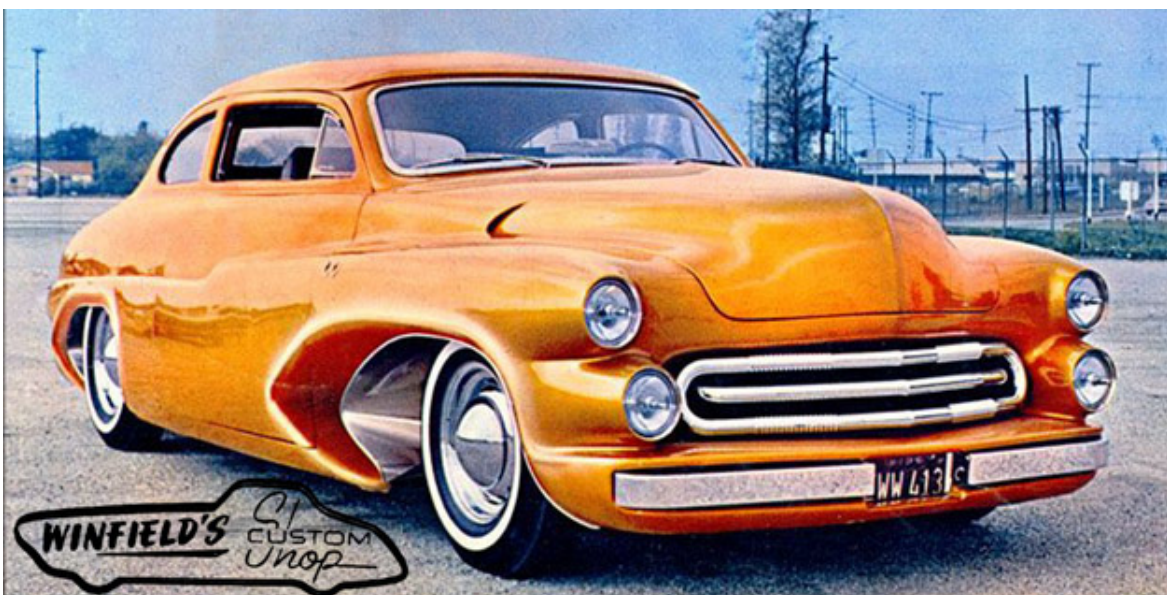

It had the shape of a low slung two seat roadster with no top, but it was powered by an electric motor. Very few of the parts were painted and there were none of the usual hydraulic fluids or industrial adhesives common in most cars, making it 96% recyclable.

It was designed to be assembled and disassembled easily with a minimal amount of equipment. There were no welds holding it together: Instead, its 500 or so pieces of bamboo, aluminum and carbon fibre were held together with 364 titanium bolts. The total weight was said to be 900 pounds (410 kg).

Gene Winfield, Custom Car Legend, Dies After Terminal Cancer Diagnoses

Gene designed/built soo many cars including the Spinner from the 1982 neo-noir science-fiction movie Blade Runner below and the Solar Scene with it's candy bronze color and chopped and channeled custom 1950 Mercury
